

# Coastal ASPIRES Workflow

## - LGH pharmacists

---

Created Nov 21, 2019 Update Feb 5, 2021 (rounds time)

**What's happening?** Cerner AMS Worklist

**What does it do?** It fires alerts to ASPIRES team based on pre-defined rules.

**Who reviews the alerts?** ASPIRES pharmacist, daily.

**What will ASPIRES pharmacist do with these alerts?**

- Conduct preliminary assessment, and:
  - ➔ Urgent – bring to ward pharmacist's attention verbally (in person, page, phone)
  - ➔ Non-urgent – send Pharmacist Consult to Clinical Worklist in Cerner

**What do I do with the consults?**

- Complete them prior to next ASPIRES pharmacist rounds
- Document assessment, intervention, and outcomes (urgent and non-urgent) as follows:
  - As independent chart note, not grouped with other documentation
  - Type: Pharmacist Consult
  - Title: Pharmacist Note – AMS antibiotic name/issue
  - Eg. Pharmacist Note – AMS penicillin allergy
  - Eg. Pharmacist Note – AMS meropenem
- For ASPIRES IV to PO alerts, always document as:
  - Title: Pharmacist Note – AMS IV to PO
- Reserve Note Type “Antimicrobial Stewardship Progress Note” for ASPIRES staff

**Why so specific with titles?** To facilitate data gathering and program evaluation

**When are ASPIRES pharmacist rounds? **Tuesday & Friday 1 to 2:40pm****

- **1pm** 7E | **1:20pm** 6W | **1:40pm** 2E/7W | **2pm** 4E | **2:20pm** 3E/6E
- For clinical questions, ward pharmacist may connect with AMS pharmacist ad hoc as needed

**When are ASPIRES MD rounds?** Tuesday & Friday 3 to 3:30pm

**How does ASPIRES team chart?** For MD to MD interventions, Antimicrobial Stewardship Progress note will be documented.
